A meeting of Halifax Lodge, No. 81, F. & A. M., will be held Thursday evening, at which time officers for the ensuing year will be elected. District Deputy Grand Master Scott Hodgkins, of DeLand, will be present.

G. E. HERRING VISITS THE CITY

Florida Passenger Agent of L. & N. Predicts a Heavy Travel.—Distributing Handsome Calendars.

George E. Herring, of Jacksonville, Florida Passenger Agent of the Louisville and Nashville, is in the city on business.

Mr. Herring, in speaking with a representative of the Daily News, spoke very favorably of the coming tourist travel, and especially from the West. He said that the road would carry greater numbers to Florida than ever before, and he was sure that Daytona would get her share. He spoke in favorable terms of the coming automobile event, and said that the race meet was the talk everywhere.

He is busy today distributing L. & N. calendars, gotten up in two colors, on a heavy sheet of card board.

When you have a want and want it, Just see the Daily News man; If any medium can get it This paper surely can.

About Florida.

Those who come to Florida and see for themselves are better able to judge of its comforts and the people than the editor of some paper firing at long range at what he can't see with a globe sight and will never get near enough to "taste and see" for himself of the good things here, says the Gainesville Sun. Then again, there are people who are afflicted with incurable diseases who come here, and because they could not get cured, although many experience relief while here, find fault with nearly everything. Their friends at home get tired of seeing them around feeling so miserable and kicking at everything, and are glad to get them away. Such people will never be pleased wherever they go.

The talk that prices are exorbitant in Florida is not borne out by the facts. People who are able to do their own housework can rent rooms and live as cheap here as in the North, where a fifty dollar coal bill for a small heating stove is nothing unusual during the winter. And when a man in Florida goes much over seven or eight dollars for fuel he thinks it is tough.

Board can be had from \$5 a week up, and the resort hotels, where people come for pleasure, have no higher rate than those at the summer resorts in the North. Prices vary both North and South. People who have money to throw at the birds, either North or South, will always find a flock to receive their offerings. You don't have to "blow yourself," but if you should want to, there is no law North or South to prevent you from doing it.

The persons who go away from home and expect to find the same comforts they are leaving will often be disappointed. Some who find fault with everything are getting better than they do at home.

*Xamine my ribbon remnants for your Xmas fancy work. Wide ribbon, all colors, only 10c yard; 300 yards narrow, for 5c yd. Beautiful hats, all colors, all shapes, all prices. Boston Millinery Parlor.

DAYTONA AND ITS ATTRACTIONS.

DAYTONA is situated upon the west bank of the Halifax River at its direct entrance and midway between a source at Bulow Bay and its outlet at Mosquito Inlet. It is in latitude 29° 37', seventy-four miles from St. Augustine and one mile from the Atlantic Ocean, and is acknowledged to be without a rival for beauty among the villages of the South. Its site is upon what is known as high hammock land that was crowned by nature with a most royal growth of majestic forest trees, and among these trees is the town of today, with its beautiful cottages and well-graded walks and streets. The result is that all along the wide avenues that intersect the town are lovely live and water oaks and hickories, many of them draped with graceful festoons of the gray Spanish moss, that overarch the street and walks, and among these are interspersed tall tropical palm-trees, glossy-leaved magnolias, fragrant bay and coral-berried holly, and many other varieties, while in many places the wild grape, the trumpet vine and the ampeopsis climb and cling among the branches forming shady bowers and adding grace and beauty.

The town lies parallel with the Halifax River, and extends for nearly two miles along the shore. This river is the delight of the angler and the yachtsman and forms one of the town's greatest attractions.

The main avenues that run parallel with or intersect the river are all too feet wide, except Beach street, which is about sixty-five feet, but has a half-mile of open, beautiful water, abutting upon its eastern side, where the salt waves ebb and flow and along and across which comes the cooling, invigorating and health-giving breeze from off the wide Atlantic, which temper and render the Halifax climate one of the most perfect in the world. Daytona has many miles of well-graded, macled and shelled roads and streets, rendering it the

Wheelman's Paradise and added to these, but a mile away are thirty miles of smooth, hard beach that affords an unrivalled course for long-distance cycling and driving on automobile racing. No town of equal size, North or South, numbers so many wheelmen, and cycling is a favorite pastime with the tourists summer and winter.

The Beautiful Cottages that have been erected during the past years and are being built are rendering Daytona as famous for its fine homes as for its beautiful river, trees and avenues, and they are adding yearly to its attractions.

Not the least of these attractions to those seeking homes in the South, and ranking second only to healthfulness and perfection of climate, is the fact that its population is chiefly composed of cultivated and intelligent people, accustomed to the refinements of home and social life. Added to these features are good churches, good public and private schools, stores, hotels, laundry, meat markets, novelty shops, an opera house, electric lights for street and house illumination, a good telephone system, ice factory, city water works, and hot and cold baths, etc., and everything else can be secured that is necessary to make life comfortable. An important feature in the healthfulness of this town is the

Water Supply which is derived from numerous flowing wells, of which there are probably 300 in the corporate limits. This flow is secured by boring wells to the depth of from 80 to 120 feet, passing through several strata of rock, and this depth assures purity from all surface contamination. The water is slightly impregnated with magnesia and iron, and holds sulphur in the shape of gas, which soon passes away.

The Population of Daytona proper is about 1,800. Added to this is a suburban population on main shore and peninsula of about 1,600 at Kingston, Blake, Old Seabreeze or Goodall, Seabreeze and Silver Beach, which are properly a part of the town and population.

Daytona Beach lies one mile east of the town. It is approached by three good bridges over the river and well-graded avenues, and is the principal summer resort south of St. Augustine. It has more tourists during the summer than all other places south of that city combined, and is also becoming a favorite winter resort. The beach is wide, firm and smooth, by many considered the finest in the world, and the surf bathing is safe and excellent summer and winter. People who have tried Northern and Western summer resorts declare that there are none so perfect in comfort as Daytona beach.

Automobile Race Meet. The Florida East Coast Automobile Association conducts an annual race meet on the beach, which has now a universal reputation as the greatest automobile race course in the world. The Daytona-Ormond Beach is hard as nocardium, and an ideal stretch of thirty or more miles without a break makes it the natural racing ground for America.

At low tide the beach is bare for 300 feet and neither carriage wheel, bicycle or pedestrian can make a hardly visible imprint on the smooth and well-packed sand. It is no uncommon sight to see sail-rigged bicycles speeding with the velocity of the wind before a stiff breeze along the smooth beach, thus affording the most exhilarating sport known to man. Besides these, miles of hard-shelled, palm-fringed boulevards bring the lovers of the wheel and vehicles into direct

\$3.50 Smart Boots \$3.00

STYLE is one of the most indefinable yet important of feminine attributes. Give a woman perfect beauty and that beauty can yet be exalted by the title of "stylish." When in addition to other virtues of "Dorothy Dodd" Shoes women everywhere speak of their "smart style," we feel it expresses the utmost praise. But other features also have contributed to the truly wonderful success of "Dorothy Dodd" Shoes.

Their Lightness. They are lighter than any other shoe of equal stability.

Their Arch-Supporting Feature. This gives an easy pace and carriage and accentuates the graceful lines of the instep.

Their Flexibility. They follow every motion of the foot, thus saving fatigue.

Their Moderate Price. Three fifty and three dollars per pair for really beautiful high-grade footwear.

Why not include in your gifts a Christmas box of "Dorothy Dodd" boots for some special service? You may buy special styles for dress, street, school, business, outing and other services. These are the faultless-fitting shoes now being so extensively advertised in the magazines. We have the exclusive sale. It will afford us pleasure to show them and to demonstrate these claims.
